

To all the friends of Café Catalina

In all of our years of hospitality we have become very familiar with the cycle of economic & geographical changes which threaten the normal rhythm of business. We overcame 6 months of closure to the restaurant during the Commonwealth Games, & this is now our next challenge.

The break-neck speed & breadth of this latest Covid-19 virus is like nothing we have ever faced & the well-being of our guests & team is our top priority. Café Catalina will continue to maintain its 5-star food & hygiene rating from the GCCC. Here is what we are doing to ensure that we can protect you as much as possible:

Upon arrival to the restaurant we ask that you sanitize your hands at the self-standing foaming dispensers provided.

Every one of our staff members has committed to thoroughly washing their hands on an hourly basis at least.

We are constantly cleaning & sanitizing all touched surfaces.

We are taking the temperature of every employee before they start work & will continue to closely monitor their health. Any team member that presents symptoms, however mild, will not be entering the premises until they have provided clearance after taking a Covid-19 test.

This is a difficult time for all the population. For now it is business as usual & as you know we are in a beautiful environment with plenty of fresh air, away from crowded shopping centres & with your usual great team here to take care of you.

Warmest wishes

Charlie & Anna Whitcombe

Directors
